

Important information regarding buses.

All Busways Western Sydney school bus services will not operate from Monday 23 August 2021

Dear Families of Good Shepherd School.

We have been advised by the NSW Government that in line with COVID-19 restrictions, Western Sydney bus services will operate to a Saturday timetable, effective from Monday 23 August 2021.

This means that no dedicated school bus services will operate until further notice and there will be limited standard route services.

Although student numbers are significantly reduced at the moment, we understand this is a challenging time and are aware this may impact some families who continue to send their children to school via public transport during this time.

We hope making you aware of these changes as soon as possible will assist with managing potential impacts for your student families from Monday onwards.

We appreciate you sharing the information to parents and students on your school's website, social media or newsletter to assist us with ensuring all parents and students are aware of their travel arrangements.

If you need further advice or would like to seek clarification, please visit the [Transport for NSW website](#).

Thank you for your ongoing patience and understanding.

Kind regards,

Busways.
